Proposal Overview

A net meter measures the energy consumed from the grid and credits homeowners for surplus solar power generated, promoting energy efficiency.

Net metering is a valuable mechanism that enhances the financial benefits of solar energy systems, encouraging more users to invest in renewable energy solutions while promoting sustainability.

Technical Specifications

Item	Make	Specification
Solar PV Panels	Adani/Premier	BIFACIAL PERC DCR 540Wp
Inverter	KSolare/Growatt	String Inverter
Structure	MS/HDGI	Elevated Mounting
DC Cable	Polycab	4mm Tinned Cu UV Protected
MC4 Connectors	Staubli	1000V/1500V

Commercial Offer

Base Cost	₹ 3,50,000
GST @ 13.8%	₹ 48,300
Total (Incl. GST)	₹ 3,98,300
Government Subsidy	₹ 78,000
Net Investment	₹ 3,20,300

Warranty

- Solar Panels: 12 Years Product, 25-30 Years Performance
- Inverter: 8-10 Years
- Structure: 5 Years
- Balance of System: 5 Years
